

Ref: E0200184  
Issued on 1 Mar. 2007

HELLERMANN TYTON PTE LTD

## Certificate of Factory's Auditing Standard of Brother's Certain Chemical Substances Control

We audited your factory (and your supplier if necessary) regarding the Certain Chemical Substances. We also investigated in detail regarding the "Reported Data of Certain Chemical Substances or Statement of Certain Chemical Substances Contained Less than Brother's Permissible Value"

According to the results of auditing and investigation, we confirm that you have passed the Manufacturer's Auditing Standard regulated by Brother, and your company has the conditions necessary to control the Certain Chemical Substances contained in products/ parts/ materials supplied to Brother under Brother's permissible values.

We hereby issue the "Certificate of Factory's Auditing Standard of Brother's Certain Chemical Substances Control"

Please continue to control the Certain Chemical Substances responsibly to keep their levels below Brother's permissible values.

Items covered by this Certificate:

★Special audit of vinyl chloride film process (Audit Passed: 20 Jun. 2006, Ver.2.01)

Brother Industries, LTD.  
Chief of Environmental Conservation Department  
Hiroshi Torii
